Dear Student,

I’m Michael Senoff, founder and CEO of HardToFindSeminars.com.

For the last five years, I’ve interviewed the world’s best business and marketing minds.

And along the way, I’ve created a successful home-based publishing business all from my two-car garage.

When my first child was born, he was very sick, and it was then that I knew I had to have a business that I could operate from home.

Now, my challenge is to build the world’s largest free resource for online, downloadable audio business interviews.

I knew that I needed a site that contained strategies, solutions, and inside information to help you operate more efficiently.

I’ve learned a lot in the last five years, and today I’m going to show you the skills that you need to survive.

It is my mission, to assist those that are very busy with their careers.

And to really make my site different from every other audio content site on the web, I have decided to give you access to this information in a downloadable format.

Now, let’s get going.

If You’re Into Fitness, Bullworker Puts It All Together In Only 5 Minutes a Day:

If you're into fitness, Bullworker puts it all together in only 5 minutes a day:

"Looking for a fitness program that's fast, easy and gets results right away?" asks fitness expert, Bob Breton. "Bullworker puts it all together. In just 5 minutes a day you can give your body a complete fitness workout: shoulders, back, arms, chest, abdomen and legs.

It's fast: each exercise takes only 7 seconds, once a day.

It's easy: any man between 15 and 65 in good general health can run through the whole program without getting tired.

You see your progress right from the very first day on the built-in Powermeter gauge. After two to three weeks of training, most men can expect to measure an extra inch or two of muscle on their shoulders, chest and biceps — and an inch or two less flab around the middle.

And that's just the start: there are specialized exercises for building-up or trimming down any part of your body you want to. What's more, since Bullworker training is progressive, you perform better each time. Yet the training always seems easy since with every workout your strength increases by about 1% - that's an increase of up to 50% in the first three months.

"I earn my living by keeping executives in top shape," says Bob. "My customers want results and they want them fast. I recommend Bullworker for one reason only: because it's the most advanced fitness trainer on the market and you better believe it."

The Champ, Rocky Graziano Says:
“Tensolating Will Make You Stronger in 2 Minutes!”

"Take it from the Rock, Tensolator® is the greatest muscle-building exerciser I’ve ever used. Man, I wish they had invented this thing when I was training for the fights. Instead of those long, sweaty workouts, a couple of minutes with the Tensolator puts big power in your arms and legs. That’s right, just two-three minutes a day is all it takes. Builds man-sized shoulders and trims the flab off the waist so you shape up good. For me, the way it toughens the stomach would have been worth the price in the ring.

And you don’t have to be 20 years old to Tensolate. Look at me, you guys who are 35-50 or more, and see how you can stay rugged and still pack a wallop. It really works – take it from the Rock. Now, they call this idea isometrics – but the Tensolator adds another trick called isotonics. Them big words mean that the Tensolator works different, so you don’t need a gymful of fancy equipment like I used to use. And it works fast – only 7 seconds for each exercise! That’s for me. Who wants to work hard if you don’t have to?

It gets you results fast, too. The Tensolator folks guarantee you’ll get stronger and feel in the pink in 20 days or they’ll give you your money back. That’s a fair shake, I say. What can you lose?

Matter of fact, you don’t have to send any money – well, only 25 cents for postage and handling to get a big book full of pictures of the Tensolator Method. For a bonus, I’ll include an autographed photo of me the way I look today. So, what are you waiting for? Let’s go, Champ!”

6. Front Thighs – become thicker well shaped athletic looking.
7. Calves – become normal, well-formed and firm.
You can spare 70 seconds a day!

You can get back in shape

Are you ashamed of the way you look?

Sitting down all day...big lunches...bad posture from uncomfortable travel...no exercise...too tired in the evenings...are you letting yourself go and laughing it off? Is your life destroying your body?

Then do something about it – but what? Go running? How long will that last – a week, a fortnight? Join a gym? How much time will that take up – and how much will it cost?

But there’s a so much easier and cheaper way of trimming your waist, firming up flabby muscles, getting back into shape and fighting fit.

Use BULLWORKER X5 the scientific isotonic/isometric exerciser that can achieve astonishing results which start from the very first day!

“But I’ve got no time.”
Nonsense!

BULLWORKER fitness program begins with just ten 7 second exercises a day! That’s 70 seconds a day! That’s all it takes in the first week to get you back into the habit of regular exercise and tone you up. Even the full program takes only 5 minutes a day. Five minutes before shaving...five minutes before lunch in the office...or even five minutes while watching television! Do you still say you haven’t time?

“But I already play football/cricket/golf”

So? The full BULLWORKER program exercises, tones and improves all muscles groups. Few sports do that! Besides – use the BULLWORKER regularly “and you will be fitter and stronger to enjoy your sport even more. Many professional and amateur athletes do just that. Men like Peter Shilton and Eddy Mercks recommend the BULLWORKER as an invaluable adjunct to training.

“So what’s the secret of BULLWORKER’S amazing effectiveness!”

Scientific isotonic/isometric principles developed at the Max Planck Institute in Germany...THREE TIMES FASTER than conventional methods of exercise. No strain, no boring, repetitive movements – just a fascinating series of “holds” That take only 60% of your strength. And that strength can increase from the very first day, 4% increase per week is possible. That’s 50% in three months. We have letters from thousands of
men all over the world testifying to amazing results achieved with the Bullworker. What it can do for them, it can do for you. With each exercise a flow of blood is pumped through slack muscles bringing in oxygen.

Your whole circulation benefits, you feel fresher...fitter.

**You CAN be that FIT man. You CAN spare 70 seconds a day. You CAN get back into shape. With the Bullworker.**

Our Challenge says “Results you feel, see and measure in 14 days – or you pay nothing. We mean it.

Fitness is My Business

I RECOMMEND BULLWORKER BECAUSE IT’S FAST, IT’S EASY AND IT REALLY WORKS!

Bullworker gets a top score in all three counts:

- It’s fast: each exercise takes only 7 seconds and the complete workout can be done in about five minutes.
- It’s easy: any man between 15 and 65 in good general health can perform the full program without getting tired.
- You see your results right from the very first day on the built-in Powermeter gauge. After two or three weeks of regular training, most men can expect to measure an extra inch or two of muscle on their shoulders, chest and biceps – and an inch or two less flab around the middle.

And that’s just the start: there are specialized exercises for building-up or trimming-down any part of your body you want to. What’s more since Bullworker training is progressive, you perform better each time. Yet the training always seems easy since with every workout your strength increases by about 1% – that’s an increase of up to 50% in just three months, and I’ve seen many men go on to double and even triple their strength. For my money, Bullworker is the most advanced home trainer on the market. I use it and recommend it to any man who wants to get back in top shape fast.

Aside from keeping many of the stars you see in the movies and on television in top shape, Mike Fretaut, at 40, is still one of the most sought-after stunt men in the business.

Most men know they’re not getting enough exercise to keep their bodies in shape.

Twenty years as a fitness coach has taught me one important fact: most men will not stick with a training program long enough for it to do them any good, unless the training is fast, easy and shows results right away.

Most men know they’re not getting enough exercise to keep their bodies in shape.

Build MIGHTY MUSCLES

Revolutionary Bullworker 2
BUILDS MUSCLES MANY TIMES FASTER THAN CONVENTIONAL TECHNIQUES!

NEW IMPROVED BULLWORKER WITH BUILT-IN POWERMETER LETS YOU SEE & MEASURE YOUR INCREASED STRENGTH AT A GLANCE

The amazing Powermeter gauge automatically measures the force exerted by your muscles for every exercise you do, actually tells you every day the precise increase in strength you achieve for each muscle group exercised. It’s a proven fact. The revolutionary new Bullworker can turn a flat shallow chest into a deep, manly one: forge stomach fat into steel-hard muscle: develop sturdy, powerfully muscled thighs and calves – ALL IN JUST FIVE MINUTES A DAY.

New Powermeter measures your daily increases in strength

You’ll be astounded to see how fast your strength increases right from the very first day. Just check the reading on the Powermeter scale after each exercise and compare it with your performance the day before. By the end of just two weeks of training, your increased strength will have already affected changes in your body that you’ll be able to see in a mirror, actually measure with a tape measure. We guarantee it, or you pay nothing.

Bullworker gives results many times faster

No matter what your age, no matter what kind of work you do, if you’re in normally good health, Bullworker can increase your strength at the fabulous rate of up to 4% per week. That’s a 50% increase in the first couple months alone. There’s no sweat or strain because Bullworker training never requires more than 60% of your total strength. You don’t even have to disrobe (??). Each exercise takes only 7 seconds, and the complete daily training program takes less than 5 minutes.

POST THIS COUPON TODAY TO TRY GUARANTEED-EFFECTIVE BULLWORKER TRAINING IN YOUR OWN HOME FREE FOR 14 DAYS
Introductory Training Plan

It’s Easy, Fast, Effective and All It Takes Is 70 SECONDS A DAY

Unless you’re already in peak physical shape, you can ensure maximum muscle growth by following these simple introductory training recommendations:

1. During the first week of training, perform only the seven exercises illustrated on this page. Each exercise of this super-effective introductory series is designed to concentrate on a different muscle group. Perform each one daily during the next week, and you’ll begin to see the amazing improvements that will prepare your body for the expanded, advanced muscle-building sequences to come. You can add exercise no. 1 from the Bullworker Booklet if you want extra help in trimming off excess fat around the middle. Don’t be over eager. Start your training slowly. Perform these seven introductory exercises only, no more.

2. Take your measurements, NOW, before performing even the first exercise. Measure your chest when expanded and your biceps when flexed. Enter the figures in the special Weekly Progress Chart on the last page of this letter. Then measure yourself again at the end of the second week. You’ll be amazed by the results you achieve…and we want you to have the proof in writing!

3. Concentrate on better performance every day. Don’t strain: 60% to 70% of your strength is all it takes to achieve maximum muscle growth. Check the reading on the Power Meter scale after you do each exercise, and enter the readings on the Power Chart on the last page of the letter. Make sure you make a note of all seven readings every time you train. It’s not always easy to objectively see your improvements in a mirror…but the Power Chart will give you an exact, scientifically measured evaluation of your increasing muscle strength from day to day!

4. Don’t rush your training. It’s important to make sure you maintain each contraction for a full six to eight seconds. Check the timing of each exercise against a clock with a second hand.

A “week of training” consists of five or six workouts in a seven-day period. If, for any reason, you should miss three or more days of training in a row, start the “week” over again.

During the second week, continue to perform the seven basic exercises…and add three new exercises from the Bullworker Booklet every day. The first day of the second week, you should perform 10 exercises (the basic seven plus three new ones): the second day you should increase to 13, etc. By the last day of the second week, you should be performing all 24 exercises in the Booklet.
At the end of the introductory two-week period, take your new measurements and take a good look at your body in a mirror. You'll be amazed that such a quick, easy, non-tiring method could produce positive results so fast! And believe us, that is only the beginning.

WHEN WERE YOU LAST REALLY FIT?
AN EXPERT TELLS YOU HOW TO GET BACK IN SHAPE

Q. What does fitness mean?
A: For normally healthy people, fitness is a simple matter of maintaining muscle long through exercise. In other words – using your muscles often enough and hard enough to keep them healthy and trim.

Q: How does lack of fitness show up?
A: The answer depends on how old you are. If you’re still in your teens or early twenties, it’s largely a matter of physical development. Young men with pipe stem arms, caved in chests, drooping shoulders or bird like legs aren’t fit. When you’re a little older, the first signs are usually a roll of fat around the middle and a lack of pep and energy. After 40, the whole body tends to become flabby.

Q: Can sports keep me fit?
A: Yes, indeed, if practiced regularly and for long enough periods. Swimming, jogging, gymnastics, tennis, handball, squash, skiing can all help keep you in top condition provided you practice the sport for at least an hour three or four days a week – every week.

Q: Isn’t there an easier way?
A: Yes, there’s an outstanding home training method which I use and recommend. It’s fast, easy and guaranteed to give results.

Q: What’s it called?
A: Bullworker training. It’s based on Isometric techniques which have been proven to increase strength three times faster than sports or conventional calisthenics. In my opinion, it’s the most advanced training system on the market today.

Q: How long does it take?
A: The 7-exercise introductory program requires only 70 seconds of exercise per day.

Even if you’re not particularly interested in building he-man muscles, you owe it to yourself to keep your body fit. It’s a sad fact of today’s life that many men ignore this point and end up regretting it when they find they’ve become “old men” long before their time. Thanks to modern exercising techniques, “keeping fit” is not easier than ever. John Texler, Mr. France and leading fitness specialist tells you how.
The complete advanced training program takes about 5 minutes.

Q: *When do the results start?*

A: Right from the very first day, The Bullworker is fitted with a built-in measuring device which shows you exactly how much progress you make every day. And the results can be very impressive – up to 4% more strength per week, up to 50% improvement in the first three months. I’ve seen many men go on to double and even triple their strength.

Q: *How long does it take to see visible results?*

A: From 10 days to three weeks depending on how well you train and how regularly. Each new week brings even more impressive results.

Q: *But it’s hard work, isn’t it?*

A: Not at all. The whole point of Isometrics is that by “exercising” for only 7 seconds at a time, you avoid the excess muscle strain and fatigue of “crash” training programs which often do more harm than good. Bullworker training is gauged to each user’s personal potential.

Q: *Is there an age limit?*

A: General speaking, men between 15 and 65 in good general health can expect to benefit from fitness and strength building training. Young men should use Bullworker to improve their muscular development: broad, powerful shoulders – rippling biceps – a deep, manly chest tapering down to a slim waist and hips supported by muscular, contoured thighs and calves.

Men in their thirties should use Bullworker to maintain peak physical form and for toning-up the muscles of their abdomens, chest, shoulders and upper arms. After 2 or 3 weeks, you’ll probably see muscles you didn’t even know you had.

From 45 on, Bullworker should be used to regain and maintain a youthful vigorous body that belies the passing years. I’ve seen lots of Bullworker users in their fifties with more energy, power, and vigor than many younger men.

Q: *How can I find out more about the Bullworker and perhaps actually try it out?*

A: I understand that the American distributor is now offering the Bullworker on a two-week free home trial basis in order to give as many men as possible a chance to prove to themselves what an outstanding fitness trainee it is. If you’re interested in getting back into shape fast, I recommend you contact the distributor for full details.

EXPERT ADVICE ON GETTING BACK IN SHAPE

It’s a sad fact of life today that many men fail to keep their bodies fit – and end up ‘old men’ long before their time. Now, thanks to modern exercising techniques, keeping fit is easier than ever. Let a leading fitness specialist tell you all about it.

Q: How does lack of fitness show?
A: Young men with their drooping shoulders and caved in chests are certainly not fit. In the thirties, the first signs are rolls of fat around the middle and a general lack of energy. After 40, the body tends to become flabby.

Q: Can sports keep me fit?
A: Only if practiced for an hour, three or four days a week every week.

Q: Is there an easier way?
A: Yes, I recommend Bullworker training because it’s easy and gets results fast. It’s based on isometric techniques which increase strength three times faster than conventional sports or calisthenics. In my opinion, it’s the most advanced training system on the market today.

Q: How long does it take?
A: The 7-exercise introductory program requires only 70 seconds a day. The complete advanced program takes about 5 minutes.

Q: Is it hard work?
A: Not at all. You hold an isometric exercise for only 7 seconds at a time, using only 60% of your power. As your strength increases you move to specialized exercises – but your training always seems easy because you’re in better shape every day.

Q: How long does it take to see visible results?
A: Right from the very first day, Bullworker is fitted with a built-in measuring device which shows exactly how much progress you make every day, up to 4% more power a week, up to 50% in three months. I’ve seen men go up to double and even triple their strength.

Q: Is there an age limit?
A: Almost anyone between 15 and 65 will benefit. Young men can develop broad, powerful shoulders, rippling biceps and deep, manly chests. Men in their thirties can use Bullworker to tone up the abdomen muscles in addition to all other muscles. From 45 on, Bullworker can definitely help maintain energy and general fitness.

Q: How can I find out more about Bullworker?
A: The British distributor is now offering Bullworker for a two week free home trial. If
you’re interested in getting into good shape fast, I recommend you to contact them.
